

UCI SKIN: A Skin Biology Resource Center | Distinguished Speakers Series
All Lectures 11:00am - 12:00pm • Gross Hall, Thorp Conference Center 4000

| | Speaker | Topic | Date |
|--|---|---|---------------|
|  | Matt Hangauer, Ph.D. UC San Diego Cancer Persister Cells | Cancer Persister Cells | Oct. 25, 2019 |
|  | Robert Cornell, PhD University of Iowa Health Care | Analysis of zebrafish periderm enhancers facilitates identification of an orofacial-cleft-associated regulatory variant. | Nov. 22, 2019 |
|  | Kavita Sarin, MD, PhD Stanford | Chinks in the armour: skin cancer as a paradigm for understanding oncogenesis. | Dec. 13, 2020 |
| | | Annual Skin Symposium Skin Biology and Disease | Jan. 24, 2020 |
|  | Peter Adams, Ph.D. Sanford Burnham Prebys | Irregular development of embryonic melanoblasts is linked to premature aging of adult melanocyte stem cells | Feb. 12, 2020 |
|  | Cristina de Guzman Strong, Ph.D. Washington University | Decoding the EDC Locus for the Skin Barrier in Evolution and Disease | Feb. 28, 2020 |

| | Speaker | Topic | Date |
|--|---|--|---------------|
|  | Slobodan Beronja, PhD Fred Hutchinson Cancer Research Center | Skin stem cells in homeostasis and cancer | Mar. 18, 2020 |
|  | Tudorita Tumber, PhD Cornell University | Mouse epithelial stem cells dynamics in adult skin regeneration | Apr. 24, 2020 |
|  | Maria Morasso, PhD National Institute of Health | Primed for healing: models of enhanced tissue repair | May 29, 2020 |
